

Network Device Interpretation # 202303

Link to allowed-with list

Status: *Active* *Inactive*

Date: *8-May-2023*

End of proposed Transition Period (to be updated after TR2TD process): *8-May-2023*

Type of Change: Immediate application Minor change Major change

Type of Document: *Technical Decision* *Technical Recommendation*

Approved by: *Network iTC Interpretations Team* *Network iTC*

Affected Document(s): *NDcPP v2.2e*

Affected Section(s): *chapter 2*

Superseded Interpretation(s): *Rfl#202010*

Issue:

Issue: Link to allowed with list:

The link to the allowed-with list provided in Rfl#202010/NIAP TD0538 points to the list dated 31 March 2022 - <https://ccusersforum.onlyoffice.com/Products/Files/doceditor.aspx?fileid=6627718>.

Should this now point to the updated list dated 30 January 2023 - <https://ccusersforum.onlyoffice.com/Products/Files/DocEditor.aspx?fileid=8171408>?

Note that the URL link to the folder in OnlyOffice that contains the Allowed With Lists is current.

Resolution:

The storage location of the allowed-with list has been moved to GitHub in the meantime. The link to the allowed-with list provided in NDcPPv2.2e as well as in Rfl#202010/NIAP TD0538 shall be replaced by

https://github.com/ND-iTC/Documents/blob/main/NDcPP_allowed_with_list.adoc

Rationale:

see Resolution section
