

CCEVS APPROVED ASSURANCE CONTINUITY MAINTENANCE REPORT

ASSURANCE CONTINUITY MAINTENANCE REPORT FOR

U.S. Government Virtual Private Network (VPN) Boundary Gateway Protection Profile for Medium Robustness Environments

Date of Activity: 01 December 2008

Updated Protection Profile: U.S. Government Virtual Private Network (VPN) Boundary Gateway Protection Profile for Medium Robustness Environments version 1.01 01 December 2008

Assurance Continuity Maintenance Report:

Changes were made to the validated U.S. Government Virtual Private Network (VPN) Boundary Gateway Protection Profile for Medium Robustness Environments version 1.0. These changes generated the U.S. Government Virtual Private Network (VPN) Boundary Gateway Protection Profile for Medium Robustness Environments Version 1.01. The changes reflected updates to cryptographic portion of the protection profile that were necessary based on comments from the CCTL and by the government cryptographic organization. These changes were reviewed by the Common Criteria Evaluation and Validation Scheme (CCEVS) Senior Technical Advisor and found to be correct, sound, and appropriate as updates to the previously evaluated Common Criteria version.

Changes to PP:

The following areas were changed in the new version of the Protection Profile:

1. Cryptographic Requirements
2. Typographical errors
